

# LOGGING EMERGENCY MEDICAL PLAN

In the event of a serious accident or other emergency, it is essential that workers have an action plan. The plan must include information that is specific to each logging site such as:

1. Work location.
2. Available helicopter landing pad.
3. Directions by road system.

If this plan is developed and communicated to the crew, confusion can be avoided and time saved.

Employer's name	Telephone number	Company radio frequency
Business address		

## WORK LOCATION

Township	Range	Section	1/4 Section	or	Latitude	Longitude	Sale Name
Directions by road system							
Property ownership						County	

## EMERGENCY RESCUE INFORMATION

Helicopter may not respond due to weather conditions, availability of craft or other reasons. Helicopter requests may require authorization of medical aid or law enforcement personnel.

<b>Ambulance/aid car location</b>	
Phone number: 911 or	
<b>Sheriff location</b>	
Phone number: 911 or	
<b>Helicopter location</b>	
Phone number: 911 or	
<b>Helicopter landing area</b>	Hoist needed? Yes <input type="checkbox"/> No <input type="checkbox"/>
Working behind locked gate(s)? Yes <input type="checkbox"/> No <input type="checkbox"/> If yes, describe procedure for emergency vehicle access (EXAMPLE: Emergency services has key, escort will meet them at gate, etc. If escort will be used, identify who it is, along with a back up.)	

# LOGGING SAFETY AND HEALTH MEETINGS

WAC 296-54-51510, Safety and health meetings.

1. The employer must hold safety and health meetings at the following intervals:

a. Each time the employer moves to a new jobsite; and

b. Monthly after the initial jobsite meeting.

2. Safety & health meetings may be conducted individually, in crew meetings, in larger groups, or as part of other staff meetings.

3. Attendance and subject(s) must be documented.
